The CD7523 is a precision 6 GHz miniature 23AWG coax for HD/SDI, standard SDI or high resolution video applications. Clark's CD series coax features specifications that meet or exceed SMPTE standards for digital video interconnects up to 6 Gb/s. Also built for easy termination, the CD series has an easy-to-strip outer jacket and dielectric that streamline connector termination. UL rated type CMR, the CD7523 can be installed in a variety of permanent installation locations and environments.
